You will find that in addition to being an extremely skilled producer, Adele has an amazing gift for creating a light & fun space in which everyone can collaborate / contribute. Crew love her for this reason and yet, she's equally appreciated by production, agency & client for meeting (and often exceeding) their delivery expectations.

***Agency Producer Leo Burnett / MRPS, Michael Rafayko***

Thank you for a wonderful job! I'm so pleased with the way that everything went yesterday thanks to your calm and steady hand. Flawless! I loved working together! You are officially one of my new favorite human beings. Hope that you have a wonderful trip! Looking forward to working together again soon! I want to do every single job together from now on :-)

Please pass along thanks to your wonderful production team. They were the best!

Thank you thank you thank you!

***Agency Producer Leo Burnett / ARC Worldwide, Jodi M Katz***

As mentioned I have an amazing line producer who works wonders and roles with the punches like no other. I was so amazed on what she was able to stretch the budgets as things changed as my project was a firm bid. She was great with the director, crew and my creative team. She was able to keep calm as things were spiraling out of control and in the end helped keep everything moving and my team happy.

I have been fortunate to work with some great producers, but I have to say Adele has been one of the best
